PROFESSIONAL EXPERIENCE

WAYFAIR.COM, Ogden, UT

Fraud Detection Assistant Manager

July 2015 – Present

- Led a team of 5 analysts to increase our fraud detection outlook which has saved the company millions to date.
- Collaborated with colleagues to design a streamlined approach to credit card disputes to cut back time needed for the task.
- Created a productivity tracker for the department with Google Sheets and Google Data Studio to provide insight to management on team's daily productivity.
- Created coaching programs to assist our newer analysts the skills necessary for job accomplishment which has cut back our ramp up time.

RELEVANT PROJECTS

STUDENT MANAGER

Created a CRUD app for my mid-term project. I learned more about LINQ statements and how to manipulate data and present it on a web app. I also learned more about the Bootstrap framework and general styling.
